

FOR IMMEDIATE RELEASE:

“Hutton Communications announces distribution of EION Wireless Products in North America”

Former Wi-LAN products available through the Hutton distribution network

Carrollton, TX, (August 27, 2007) Hutton Communications, Inc., a leading distributor for wireless communications products, announce they will distribute EION Wireless products to the Canadian and United States markets. In April 2006, EION Wireless acquired product lines from Calgary based Wi-LAN Inc. The VIP 110-24, Ultima3 wireless radios and the Libra MAX WiMAX platform will now be available through Hutton Communications distribution.

“Hutton has a forty-year proven track record of delivering wireless solutions in North America,” stated EION CEO, Kalai Kalaichelvan. “We are delighted to formalize our relationship with Hutton by having them join our channel partner program. We look forward to continued success of the VIP, Ultima and Libra MAX product lines in North America.”

“We are excited about distributing EION Wireless products” stated John Walker, Hutton Communications, Inc. CEO and President. “We had success selling the VIP and Ultima products in the past and we expect to see excellent results working with the EION Wireless team in selling these same products to our customers again.”

EION Wireless products operate in licensed and unlicensed frequencies and are used by businesses, telecom service providers, governments and enterprises to deliver effective, economic and secure high-speed wireless communications solutions. EION specializes in creating products that enable high-speed Internet access, VoIP, data network extensions, and wireless data and telephony backhaul.

Through its Gold Partner Program, EION provides worldwide expertise and experience to help plan, install and deploy rugged and cost effective outdoor wireless networks. It is objective of EION Wireless to provide partners with the support, attention and training required to become highly successful in their markets.
