

FOR IMMEDIATE RELEASE:

"Hutton Communications announces distribution of Raytheon JPS Products in Canada"

Carrollton, TX, (April 30, 2007) Hutton Communications Inc., a leading distributor for wireless communications products, announce, they will distribute Raytheon Company's JPS Communications (NYSE:RTN) complete radio interoperability product line to the Canadian market.

"Our proven interoperability solutions provide a means for first responders with disparate audio devices to seamlessly communicate with each other using their existing radios. This technology plays a vital role in on-scene coordination and we are pleased that Hutton Communications will be offering our technology portfolio to the Canadian market," said Keith McDonald, vice president of Sales and Marketing for JPS Communications.

"We are excited to bring Raytheon JPS products to our customers in Canada. There is a need for these products in Canada to further improve public safety communications," said Janet Morton vice president of Sales and Operations for Hutton Communications of Canada.

Hutton Communications Inc. established in 1967, is a leading distributor of wireless communications products including site infrastructure, broadband and related networking components. Hutton provides products and services from leading wireless manufacturers to wireless carriers, tower contractors, Value Added Resellers and government agencies through a network of strategic warehouses located throughout North America.
